COVID -19 ANNOUNCEMENT

During this difficult time, it's more important than ever that we focus on the health and safety of our patients and employees. At AtlanticProCare, we're taking a proactive approach to mitigate risk of exposure. Effective immediately, we will:

- Continue to see those patients who require an in-office visit in order maintain their care. For those who come in for an in-office visit, we will offer the option to go directly from their car to the exam room and avoid the waiting room.
- Offer all patients the option of our Virtual Visit platforms to deliver other less urgent care while avoiding an office visit altogether.
- Implement procedures to screen for flu-like symptoms, to be completed when patients schedule an appointment and again when they arrive for their appointment.
- Immediately move any patients who screen positive for symptoms to our Virtual Visit platform.
- Provide CDC guidelines to all patients.
- Provide masks and hand sanitizers for all patients in our office.
- Reinforce clinical handwashing and sanitization protocols for all staff. This includes the use of gloves and hand washing at all patient contact.

We are ALL responsible for making sure that we reduce risk, not just of passing this disease to one another, but of spreading it to the broader community, even without knowing it.

Wishing good health to all,

The staff of AtlanticProCare
